

Swifttest

Providing solutions for all your vehicle needs

Welcome to Swiftest

"Swiftest is a friendly and honest independent garage, dedicated to providing exceptional service to you for your vehicles.

We build solid and trusting customer relationships based on providing a truly excellent service with great value. We always go that 'Extra Mile' to nurture and build relationships with our customers.

As a proud member of the **RAC Approved Garage Network** our mission is to always provide you with the highest quality of auto repairs. Our skilled team of experienced technicians will always try and get you back on the road as quickly and efficiently as possible. Our focus and priority is to keep your fleet running reliably"

David Goodman

Managing Director

Swifttest

Providing solutions for all your vehicle needs

We are passionate in providing a cost-effective, friendly, honest and reliable service for virtually all types of vehicle repairs, servicing and MOT testing.

All our technicians are fully qualified to NVQ Level 3, and you'll find our reception staff exceptionally friendly and helpful.

When we quote for a job, the labour cost will be based on industry-standard ICME job times, plus the cost of the parts at non-inflated, regular high-street prices. We will always shop around to find the best deals on parts using a variety of suppliers, helping to save you money.

Furthermore, we aim to take the mystery out of the car repair and servicing business by being up-front with prices and ensuring there are never any surprises on your invoice when you come to collect your vehicle.

A close-up photograph of a hand pouring yellow motor oil from a grey plastic jug into the oil dipstick tube of a car engine. The engine components, including hoses and metal parts, are visible in the background. A semi-transparent grey box with a green top border and a black bottom border is overlaid on the right side of the image, containing the text 'Our Services'.

Our Services

Our Services

Whatever type of vehicle you own, from a mini to a Sprinter van, we have the trained staff, equipment and knowledge to keep it on the road at a cost effective price. We offer a wide range of services to cater for your vehicle including:

Mechanical & Electrical Repairs

Engine & Transmission Repairs & Rebuilds

Vehicle Servicing & MOT

Tyres & Brakes

Air Conditioning Service & Repairs

Electronic Diagnostics of Engine & all systems

“Whatever type of car or commercial vehicle you drive, we're here to help you keep your service history up-to-date and ensure your vehicle is maintained in tip-top condition. From a mini to a 4 ton van, we'll save you £££s' over main dealer prices without compromising on quality”

Vehicle Repairs & Servicing

Our fully-equipped workshop has 5 bays and can cope with almost any type of car, van or 4x4. We know how inconvenient it can be to have your vehicle off the road for repairs for any length of time, which is why we always aim to fix your vehicle the same day, subject to spare parts being available.

In general, most parts suppliers can deliver to us the next working day if the part is not already in stock, so your vehicle shouldn't need to be off the road too long. We are always happy to arrange a hire vehicle for you while your vehicle is being repaired and we also offer a free courtesy car (subject to availability) for smaller repair jobs or servicing.

You can also book an **MOT** or request a **SERVICE** 24/7 using our live, real-time Booking System. Pick a date and time to suit you, receive instant email confirmation and a free annual reminder.

Other Services

Should your vehicle develop a serious fault with its engine or transmission, we have the necessary skills and equipment to diagnose and repair it at a fraction of the cost of a main dealer. Whether it's rebuilding your existing unit or supplying a replacement (either new or second hand), you can be sure that we'll advise you on the best option for your vehicle.

If your car or van interior isn't cooling effectively, we're able to diagnose and repair air conditioning systems using our range of specialist equipment and IATA Trained technicians. We're also fully equipped to deal with the new HFC1234YF gas.

We are the approved Terraclean service centre for Aldershot and we offer a range of engine cleaning and decarbonisation treatments including EGR, DPF and induction treatments for both petrol and diesel engine vehicles.

Modern diesel engines have complex emission control systems fitted such as Particulate Filters and Selective Catalyst Reduction (AdBlue). We're experts at accurately diagnosing and repairing these systems to ensure you minimize pollution levels.

Every car sold in the UK since 2004 has Anti Lock Brakes fitted as standard. Faults with the ABS or traction control system will fail the MOT and can make your vehicle dangerous to drive. We can quickly diagnose and repair any faults and will offer a range of solutions to suit your budget.

Free Loan Vehicle (subject to availability) – to keep you mobile while we work on your vehicle (you only pay for fuel)

A photograph of a man wearing a cap and a dark shirt, driving a white van. The van is on a road lined with tall, thin trees, with sunlight filtering through the leaves. The text 'Fleet & Van Servicing' is overlaid on the left side of the image in a large, bold, black font. A semi-transparent grey rectangle is positioned behind the text. A green horizontal bar is located below the text, and a red horizontal bar is at the bottom of the slide.

Fleet & Van Servicing

Fleet & Van Servicing

If you run a small fleet of vehicles, whether they're Minis or Mercedes Sprinters, every day off the road costs you money. Using main dealers often with long lead times for booking and inflated prices can cost your company substantially more than you need to spend on maintenance and repairs.

We can offer a far better solution at significantly reduced costs that'll keep your fleet on the road and earning you money.

We can service your vehicles to main dealer standards using genuine manufacturer's parts to ensure that your warranty remains valid. We keep accurate service records and will send reminders when future work is due.

If you experience a major fault such as a clutch or dual mass flywheel failure (typically a 7 hour job to replace on most large vans), if you arrange for the vehicle to be recovered to us, we'll try to get you back on the road by the end of the next working day.

We cater for all cars and vans up to 4 tonnes such as a LWB Sprinter, Iveco Daily or Transit 350.

10 Reasons Why

Reason 1

We're different to most garages – try us and you'll see why?

Reason 2

We don't pay our technicians a bonus to 'invent' extra parts or services

Reason 3

We have all the latest diagnostic equipment and trained staff to use it

Reason 4

We don't overcharge for parts - you'll pay the same (or less) than in the shops

Reason 5

We're an RAC approved garage but completely independent

Reason 6

We don't just fit new parts until the fault is fixed

Reason 7

Our labour rates are on average 30%-50% less than main dealers

Reason 8

We can service your new car without affecting the warranty

Reason 9

You'll find us to be completely honest and up-front

Reason 10

We'll make you a lovely coffee while you're waiting!

Why Swifttest?

Opening Times

Monday	8:00am – 5:00pm
Tuesday	8:00am – 5:00pm
Wednesday	8:00am – 5:00pm
Thursday	8:00am – 5:00pm
Friday	8:00am – 5:00pm
Saturday	Closed
Sunday	Closed
